In the twenty-first century, students must be able to communicate with members of other cultures in order to be productive beings of the global world in which we all live. The following curriculum focuses on teaching Spanish for communication, heightening student awareness of cultural perspectives, and preparing students to use the target language in day-to-day interactions. Students will be engaged in meaningful, motivating, and cognitively challenging work; they will actively use language each day and they will be assessed using a variety of assessment strategies. By implementing the goals and standards of this curriculum, students will be culturally and linguistically prepared to function in our global society.

**Course Description:**

<table>
<thead>
<tr>
<th>Standard 7.1</th>
</tr>
</thead>
<tbody>
<tr>
<td>All students will be able to use a world language in addition to English to engage in meaningful conversations, understand and interpret the spoken and written language, and present information, concepts and ideas while gaining an understanding of the perspectives of other cultures. They will make connections with other content areas, compare the language and culture studied with their own, and participate in home and global communities.</td>
</tr>

</table>

<table>
<thead>
<tr>
<th>Standard 7.2</th>
</tr>
</thead>
<tbody>
<tr>
<td>All students will demonstrate an understanding of the perspectives of a culture(s) through experiences with its products and practices.</td>

What will help others understand you better when you discuss your school day?

How do you start, carry on, and end a conversation about school more effectively?

Pictures, movement, and physical demonstration of words or expressions can help people understand you better.

To have a natural conversation about school you have to do more than just ask and answer questions. You have to listen to what the speaker is saying and respond appropriately.
